The Human Resource Manager

Gianair Ltd

Kotoka International Airport

Accra, Ghana

Dear Sir/Madam,

APPLICATION FOR NATIONAL SERVICE POSITION AS AIRCRAFT MAINTENANCE
PERSONNEL

I am writing to express my interest in undertaking my National Service with Gianair Ltd as an Aircraft Maintenance National Service Personnel. I am currently a final year Electrical and Electronics Engineering student at the University of Mines and Technology, and I expect to complete my studies soon, after which I will be available for my National Service placement.

I have an interest in aviation systems, aircraft technology, and maintenance operations. My academic training has provided me with a background in electronics, electrical systems, troubleshooting, and technical problem solving, which I believe are valuable skills in the aviation maintenance environment.

I am particularly interested in Gianair Ltd because of its commitment to safe and reliable charter operations within Ghana and the West African region. The opportunity to learn and contribute to aircraft maintenance operations within such a professional aviation environment would greatly enhance my technical development and practical engineering experience.

During my studies, I developed analytical and technical skills and gained experience working with electrical systems and engineering tools. I am eager to apply these skills while also learning from experienced aviation professionals.

I am motivated to contribute positively to the maintenance team while gaining valuable industry experience during my National Service period.

I would be grateful for the opportunity to serve with Gianair Ltd and contribute to maintaining the high standards of safety and reliability associated with your operations.

Thank you for considering my application. I look forward to the opportunity to discuss my application with you. Thank you.

Yours faithfully,

Ntim Peter Prince Duodu.
